Box LatchTM Products

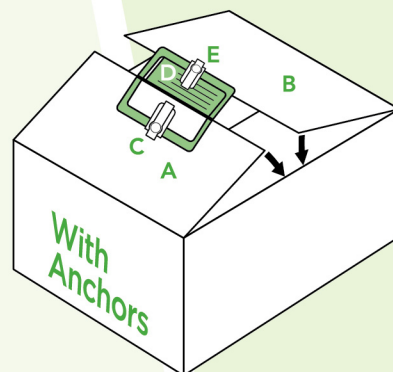

OPTION A - Slide On

1. With box flaps closed, slide Box Latch between flaps A & B from either direction and move to center.
2. **Open** : Slide latch off in either direction.

OPTION B - Push On

1. **Close** : With thumb pressure on ribs, push lower wing of Box LatchTM under flap A
2. Press down with thumbs on ribs of opposing wing C, insert flap B between latch wings.
3. Push flaps A & B down and together to fully close.
4. **Open** : Slide latch in either direction or lift flaps with both hands to remove it or leave one side attached to remain with box.

OPTION C - With Anchor(s)

1. **Close** : Close first flap as per Option B.
2. Push anchor C down, locking tooth through flap A.
3. Press down with thumb(s) on ribs of opposing wing D, insert flap B between latch wings.
4. Push flaps A & B down and together before latching second Anchor E.
5. **Open** : With one Anchor, lift unanchored flap with both hands. With two, unlock one and lift flaps. Leave latch attached to prevent misplacing it or remove and store for reuse.

Box Latch™ Corner Clip

Holding Flaps Open

The clips hold flaps down and out of the way for filling and emptying. The clip rails and rims allow for open boxes to be stacked.

KEY FEATURES & BENEFITS

Additional Benefits

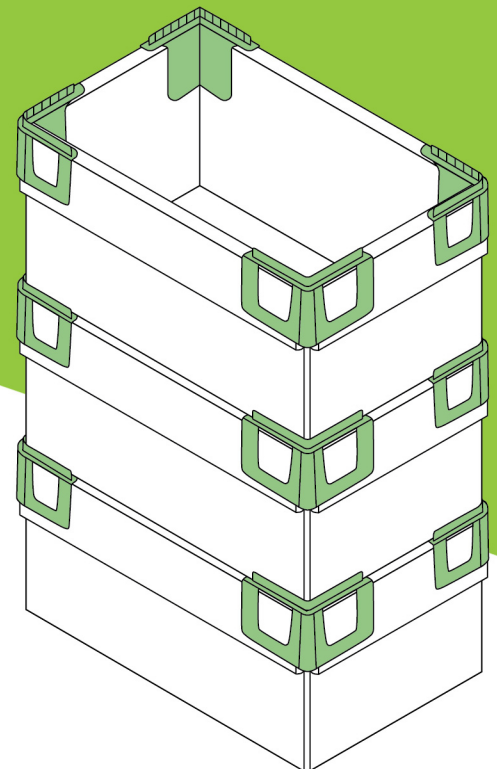

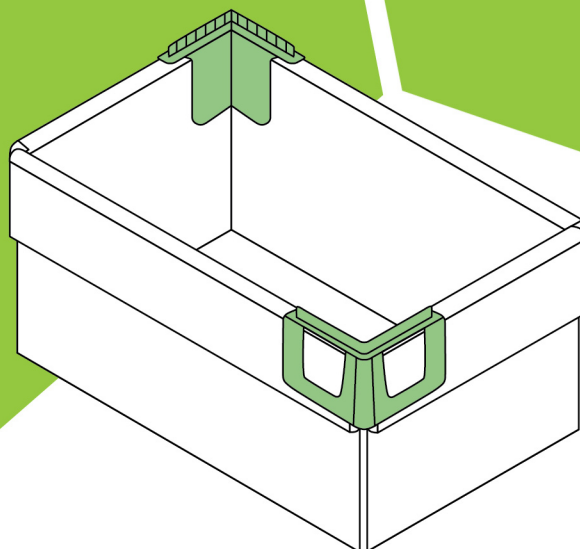

- Hold flaps and plastic liner in place while filling boxes.
- Pre-build boxes during slow times to be used as needed.
- Save valuable floor, shelf and/or rack space.
- Fill, stack and store boxes for Q.A. Inspection.
- Transport open boxes through pick to pack, WIP and manufacturing processes.
- When done filling boxes, simply remove Corner Clips, close, tape and ship.

Use Corner Clips to hold box flaps open and down for easy filling, emptying and stacking.

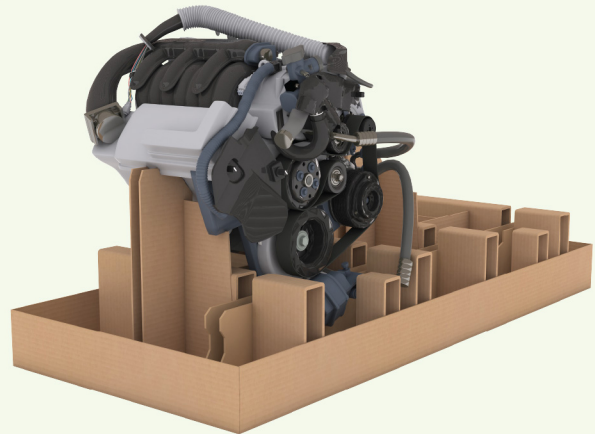

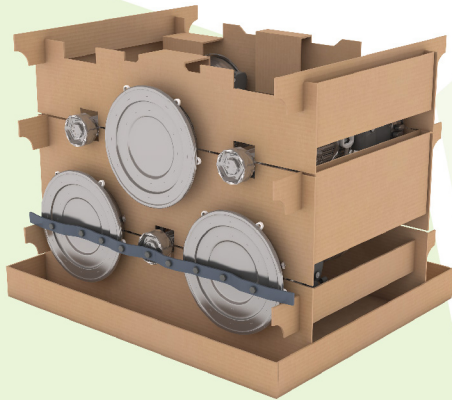

- Two Corner Clips needed for stacking empty boxes.
- Four Corner Clips needed for stacking filled boxes.

Prevent contamination of open, stacked boxes.

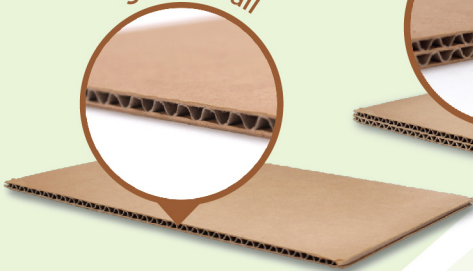

- By palletizing and shrink wrapping.
